Treasurer's Report: No Change

Minutes- No objections in the room will double check emails to make sure there are no objections or changes.

Attendance: Randy R., Angelica O., Karey W.

Old Business

Advisor Report: After final grades are posted Sheryl and Karey typically run reports for new eligible members. Karey asked whether the group would like to review the list and select eligible members that they might know to hand deliver the membership letters. The group liked the idea. The advisors gather the eligible list and draft the letters to have ready for review after the group returns from spring break.

College Project:

- Mariah wanted to see if someone else is willing to draft a plan for Ross Tomlin regarding our top 3 choices. If not she will! Randy agreed to draft the plan. We typically meet with the president by April.

HIA Project: Research is moving along. So far, the question that stems from the research is "How does wetland mitigation effect our local environment?" Randy has pulled the Planning and Reflection worksheet from PTK's website to review and start working through.

Sock and Underwear Drive: There was discussion around how many tickets a person should get for each donation. The group definitely wants more than 1 ticket....maybe 5 tickets per donation?

PTK Awareness week 02/25-03/01

- Noticed a few people signed up for more information and a few people wanted to join! It was noted that the seven people that signed up for more information did so at times, where a PTK member staffed the table. Sheryl has reviewed the list and will reach out to each person individually with specifics surrounding their eligibility.

Pi Day: Thurs. 03/14/2019

- Raffle – Mariah’s step fathers business is willing to donate something if we can come up with an object that we would like to raffle off. They aren’t big on just writing checks but they will buy something new to donate.
- Angelica brought a \$50 gas gift card. The decision was made to use the gas card for the raffle item on Pi Day and save the connection with Mariah’s fathers business for a future event.
- An email needs to be drafted to reach out to faculty and staff for pie donations.

Fun Event for TBCC students: Skating rink seems to be best option. Karey mentioned standard party pricing (\$60 for 12 skaters...each additional skater costs extra). There was discussion around whether or not there was nonprofit/school function pricing or discounts.
