## **A student requesting support services must:**

- Submit proper documentation supporting the disability
- Complete an Accommodations Request Form
- Provide a copy of your class schedule

It may take at least two weeks before accommodation can be put into place so allow plenty of time for the ordering of textbooks in alternative format, distribution of equipment, scheduling of interpreters and scheduling of testing accommodations.

## **Documentation requirements**

- A qualified professional should conduct the evaluation and provide name, title, professional credentials, including information about state licensure or certification number.
- The evaluation should include the diagnosis and be dated.
- The document will include the original signature of the professional responsible for the assessment of functioning.
- The evaluation must be current. Disabilities may change in severity over time and documentation should support current accommodation needs. Generally most evaluations must be completed within the last three years.
- Recommendations and rationale for accommodations and/or assistive technology must be based on the analysis of the functional impact of the diagnosis.
- Services, accommodations, and/or assistive technology will be determined on an individual basis upon documentation review and consultation with the disability service professional. Insufficient documentation may result in the delay of services and accommodations.

## **Term by Term Accommodations**

You will need to schedule an appointment with a Career Education Advisor before each term starts. Accommodations will not be provided without this appointment to discuss specific needs and to request accommodations **prior to each term.**
